## 1955 PRICE LIST OF AFRICAN VIOLET ROOTED LEAF CUTTINGS

### PLEASE READ CAREFULLY BEFORE ORDERING:

Prices listed are for rooted leaf cuttings—not clumps of small plantlets that are sometimes called "rooted cuttings." Clumps of young plants of most of these brand new varieties on this list could not be sold at these prices. However, small plants may be formed on some of the varieties ordered and the rest should be ready to pot in sterilized soil when received and should produce plants in a short time. Rooted leaf cuttings ship better than clumps of small plants and have less tendency to rot in shipment or after being potted. They usually grow sturdier plants and are therefore, we think, a better bargain for the price.

All orders are sent by first class mail to speed delivery. Airmail is 35c extra up to a \$5.00 order and 5c more for each \$1.00 of the order above that. No orders are accepted under \$3.00 and on orders below \$5.00 please add 50c for postage and packing. Please let us know if we can send fresh cut leaves if we are out of any variety in rooted leaf cuttings. We send extra leaves of new introductions in such cases to compensate.

—/—

### PLEASE NOTE:

All orders are shipped as soon as possible but shortages of some varieties may cause delay. Please name substitutes whenever possible. We do not substitute unless absolutely necessary and then we include extra cuttings of new varieties as compensation. Because of past experience and due to the fact that most of you order in the Spring, we have decided to concentrate on selling by mail in order to serve everybody better and more fairly. We should be able to get Spring orders out much faster this way. Our shipping season begins about April 15th. The sooner your order is received, the sooner it will go out after this date. No rooted leaf cuttings will be shipped during winter and cold months. Orders received during November, December and January will be acknowledged and booked for Spring shipment. Orders received at other times will not be acknowledged, since it takes us away from shipping orders. Your cancelled check, etc., must serve as acknowledgment on Spring orders while Summer and Fall orders are usually shipped within a week or ten days. Our shipping season ends about November 1st.

—/—

**IMPORTANT!** This price list is complete and is effective until March 1956. If I have any list of price changes printed before then, I will send you a copy. Since my mail is very heavy, especially in the Spring, it is best not to write me, unless it is very important. If you have occasion to write me, or to request a new list or next year's list, please state that you have list 55 RA.

## A REQUEST

When you are through with this price list, or if you don't care to order by mail, would you please pass this on to some other violet collector who might be interested in seeing it. I'm sure that anyone who orders will be well satisfied with my rooted leaf cuttings.

—/—

**IMPORTANT!** We are doing no wholesale shipping at present and because of the great demand for some of my new varieties in cuttings, we sell them only by mail. Only in this way can we give all customers as quick service as possible. However, the greenhouse will be open to sell rooted leaf cuttings every Friday morning but will be closed at other times.

Of course, if you are in the area, any time and wish to see me, please don't hesitate to stop. If I am at the greenhouse or my office next to it, please knock or ring the bell so I'll know you want me. Of course we are very busy in the Spring and early Summer, but at other times of the year we'd be glad to have you drop in. The greenhouse and office are located on Route 19, one mile south of Warsaw.
